

## Why Datasets?

Because it is essential that companies can move through large number of records and make critical decisions as they go. Datasets are inherent to all DACIS intelligence services.

## DACIS Datasets: Your Ultimate Solution for Decisive Market Intelligence Management

Welcome to DACIS Datasets, your comprehensive resource for acquiring accurate and timely information on the companies you are considering for acquisition, the re-competes you are targeting, and the customers you are pursuing. No matter the scenario, DACIS is here to empower your decision-making process with unparalleled access to data.

- Total DACIS presence:
- Build from every page
  - Consolidate insights
  - Capture hierarchies of organizations and programs
  - Simplify management of program opportunities
- Consistency and Speed
- Effortless earmarking
  - Organizational mastery
  - Annotate with precision
  - Collaborate effectively
  - Extend accessibility

*Create and add to datasets easily and...*

*...organize sets and sections to quickly maximize research!*

In today's fast-paced environment, success hinges on your ability to swiftly navigate through vast amounts of records, making informed judgments along the way. DACIS Datasets equips you with the tools to excel.

Request your no-risk trial!

Reduced errors, reduced time, quicker conclusive insights. A winning combination that DACIS delivers.

## The advantage of DACIS Datasets

- **Effortless Earmarking:** As you sift through records, you can quickly earmark and assign them to specific datasets. This enables you to efficiently categorize and sort information for future reference.
- **Organizational Mastery:** When you revisit a dataset, you have the power to effortlessly subgroup records, such as those that substantiate Company A's credibility or Company B's contract rankings by fiscal year.
- **Annotate with Precision:** Seamlessly attach annotations to capture critical insights, such as indicating the vehicle under which a task order was competed or forecasting the likely vehicle for a recompet.
- **Collaborative Environment:** Share your datasets with your team, granting them appropriate access privileges. Whether it's Nora Jones editing or John Smith viewing, everyone stays on the same page.
- **Extended Accessibility:** Your datasets are important, and we treat them as such. Access your compiled information for as long as you need it, ensuring that your valuable datasets are readily available whenever you require them.

The screenshot displays the DACIS web interface for a specific dataset. The top navigation bar includes tabs for Professional, Newsline, Companies, Contracts, Programs, Customers, and Opps. The main content area is titled "Customers" and features a navigation sidebar on the left with options like "NEW OR MODIFY SEARCH", "BACK TO OPPS", and "Related Links". The central content area is for the "U.S. Army PEO MS, Strategic and Operational Rockets and Missiles Project Office (STORM)". It includes a description of the project office's role, a list of products managed (such as Multiple Launch Rocket System, High Mobility Artillery Rocket System, and Guided Multiple Launch Rocket Systems), and a reporting structure. The right sidebar shows "FED ORGANIZATION LINKS" and "RECENT ACTIVITY".

Keep a constant pulse on the buying customer with Datasets

## So much more than just data, DACIS is decisive.

Datasets is just one reason why industry leaders trust DACIS. Our clients are not solely utilizing a research service, they have instead acquired a platform that enables them to efficiently and effectively undertake tasks in the pursuit of opportunities and deep market understanding.

DACIS subscribers also have access to monthly webinars and training support that includes DACIS Datasets. Exclusive world-class support helps you explore the full potential of DACIS, understand its intricacies, and learn how to maximize its power for decisive competitive results.

Let us be your partner in making informed decisions and achieving success in your chosen markets of aerospace, defense, and Federal government technology. Experience the transformative power of Datasets and elevate your work to new heights.
